

In March 2014 we celebrate the 250 years of Heinrich Grenser's birthday, a renowned German instrument builder. To mark this event we have selected as piece of the month an English horn built by Grenser.

To illustrate better the English horn we present two videos. In the first one, Jill Crowther, from the Philharmonia Orchestra, speaks a little about her favourite instrument. In the other video it is possible to appreciate the composition by Georg Frederich Händel performed by Albrecht Mayer (English horn) and the Warsaw Symphony.
